Re: Lexco mining plan #72699 dates 6/1/04 (Revised 11/07/05) M/047/064

Dear Ms. White:

This letter is in answer to your letter of June 22, 2006.

- 1) As stated in plan addendum #2 item #2, the escape ways will be accessed by overland travel during final reclamation.
- 2) Lexco inc. commits to salvage and stockpile the upper three inches of soil and associated vegetation in disturbed areas as described on page 6 of the plan. Clayey salt-affected soils will be avoided.
- 3) During final reclamation, the ripping discussed in item #1 of addendum #2 will be to a minimum of 24 inches wherever possible. Topsoil will be applied to the roughened surface following ripping. Seeding will be conducted in the first fall following surface preparation as described on page 6 of the plan.

Please let me know if you have any additional questions.

Sincerely

James M. Lekas
Lexco Inc.
